

Massachusetts Great Ponds List

Any project located in, on, over or under the water of a great pond is within the jurisdiction of Chapter 91. A great pond is defined as any pond or lake that contained more than 10 acres in its natural state. Ponds that once measured 10 or more acres in their natural state, but which are now smaller, are still considered great ponds.

This is a county-by-county listing of great ponds in Massachusetts, according to a 1996 Waterways Program Study
