Subject: "Rezoning To Suburban II A Portion Of Residential I North Of Rice Road"

Of course the developer and the owner of the land on Rice Rd would be against any zone changes. I don't believe either one of them live in town, there just in it for the money.

Our schools, roads, Police Dept. , Fire Dept cannot handle anymore large apartment complexes.

Schools are over crowded now with not enough teachers.

Volunteer fire dept.

Not enough Police officers

The list goes on and on.

I don't think the town can afford to build more schools, add more police officers, commit to a full time fire department, and adding more School Teachers. I'm sure the land owner and developer of Rice pond Village doesn't want to absorb the cost.

So I guess the question is Why should the tax payers from Millbury have to absorb the cost so the land owner and developer can benefit.

Please support this zoning change.

Thanks
